**FRIDAY FILM REVIEW by JENNY RIVIERE**

**The Rider (2017)**

*Brady Jandreau  
 Tim Jandreau  
 Lily Jandreau  
 Lane Scott  
 Cat Clifford*

There is minimal acting in this film as it's a real life family and friends base, based on real rodeo events in South Dakota. It's powerful to say the least. It's impossible not to feel the emotions swell. Young cowboy Brady Jandreau is Brady Blackburn, a man who, after a severe accident on his horse, and despite warnings from his father and doctors, desires only to ride and train horses once again.

The relationship he has with his sister is beautifully touching. With support from his family and friends, including best friend Lane Scott, he searches for a new purpose in life, navigating through troubled waters. This film is the second from film maker Chloe Zhao, her first being the 2015, *Songs My Brother Taught Me*. This touching film shows truly what love and determination can accomplish.

Dear Bolinas Community Members:

As Executive Director of the BCLT, I have been following the posts some have sent who are concerned with our projects and I hear your concerns and fears. I also, however, hear confusion and misinformation. There are regulations that govern residential housing in Bolinas, and in particular the "creation of affordable homes." In attempt to help people to understand both what the BCLT is doing, and how it fits into the Bolinas plan, I would like to meet with people in a public venue. I am going to make myself available for an open question and answer period every Tuesday evening in February (and into March as deemed helpful) at the Commons in the Waterhouse Building (behind the bookstore) from 6:30-7:30. You can come with any question you want and I will do my best to answer it. There may be subject matter that I cannot answer due to confidentiality issues, but I will do my best to be as candid as I can. There truly is nothing hidden or secretive about our plans, nor are we opposed to or cut off from practical and constructive ideas and input. With a clearer understanding of our projects based on first-hand information, you may feel differently and your feedback will be very helpful. I look forward to speaking with you.

Thank you,

Arianne Dar

**January 31**

*In 1876, all Native Americans are ordered to move into reservations*

*Teach your children  
what we have taught our children—  
that the earth is our mother.  
Whatever befalls the earth  
befalls the sons and daughters of the earth.  
If men spit on the ground,  
they spit on themselves.  
This we know.  
The earth does not belong to us;  
we belong to the earth.  
This we know.  
All things are connected  
Like the blood which unites one family.  
All things are connected.*

*Whatever befalls the earth  
befalls the sons and daughters of the earth.  
We did not weave the web of life;  
We are merely a strand in it.  
Whatever we do to the web,  
we do to ourselves.....*

*—Chief Seattle

**Nicole Frazer**

**Saturday February 2<sup>nd</sup>, 2 to 4PM.**

**Claudia Chapline Garden Gallery**

**Stinson Beach**

Finding time to do her art while being a working mom with a young child is challenging. So, the new exhibition of Frazer's prints, pastels, and watercolors is important for her, and exciting for us to see an emerging local talent.

Frazer studied art at Scripps College of Claremont Colleges, where her grandmother, a chemist, had formerly taught science. After graduation Frazer was on the staff of the American Museum of Ceramic Art, for six years, working with the collection, artists, lenders, and organizing exhibitions.

In 2014 Frazer moved to coastal Marin where her grandmother, Winifred Tarpey, had been a resident since 1988. Frazer worked for local businesses, served as intern photo curator for Cordell Bank National Marine Sanctuary, a summer intern at Bolinas Museum and performed as a singer songwriter. She met Sirima Sataman who had been mentored by the same printmaker at Claremont Colleges and Frazer began making prints at Sataman's Point Reyes Station workshop Ink.Paper.Plate. Frazer's images are figurative, female and abstract, hinting at mysteries below the surface. In honor of Valentine's Day, Frazer also created small mixed medium paintings that might serve as gifts of love.

Today, Frazer is the mother of energetic three-year-old Weylyn, she is on the staff of Bolinas Museum, part time, as Registrar, managing the archive and collection and exhibition coordinator, and on Sundays she works at Claudia Chapline Gallery, benefiting from Chapline's extensive experience in the arts.

Nicole Frazer's exhibition runs February 2 to 28 at Claudia Chapline Garden Gallery, 3445 Shoreline Highway, on the main street of Stinson Beach. Gallery hours are Saturday, Sunday and Monday 12 to 4:30 PM and by appointment. Please join us for the opening reception!

CONSPIRACY THEORIES...

Obama was born in Kenya...  
Michelle is really a man...  
Trump is reptilian...  
and the reptiles are feasting...

are they conspiracies ?  
alternate facts made up ?  
truth... what we say it is...  
because we say it is...

Is "reality" a game ?  
pliable by will... ?  
the loudest voice wins...  
so what is truth ?

You ever watch World Trade Center 7  
fall in slow motion ?  
What happened to Kennedy's brain ?  
and why would the mob silence Oswald ?  
You want to tell me that was live video  
and audio in the 69 "moon landing" ?

What do we know ?  
the sun shines on my face...  
the wind blows thru my hair...  
i hear birds chirping...

## Urgent Action Alert

Join us on my birthday at the Civic Center, Tuesday Feb. 5, 5:30 pm for a workshop on 5G with all the Supervisors!

Marin County Supervisors are asking for citizen input re Big Wireless and the Federal Communications Commission's (FCC) forced installation of Fifth Generation of wireless. 5G: powerful RF antennas every 300 ft. on light and utility poles close to homes, offices, parks, schools, stores along the public rights of way. They want to know if you will trade your health and environment for faster downloading speed.

Do you mind if a microwave antenna is in front of your home? Do you mind if you and your children are bombarded 24/7 with intense radiofrequency (RF) radiation at close proximity? Do you mind if the FCC says you can't do anything about that? How about losing 20% of your property value because of that antenna close by? (<https://ehtrust.org/cell-phone-towers-lower-property-values-documentation-research/>)

5G will expose humans, insects, birds and other species to a more intense and complex form of electrosmog than we've experienced before. It will consist of low-band and mid-band microwaves and high band (i.e. millimeter) waves. It will involve phased-arrays, multiple input and output, and beam-forming.

Moreover, we will continue simultaneously to be exposed to WiFi, 2G, 3G, and 4G, all the previous existing man-made RF radiation.

All this constant radiation is cumulative on our biological systems that use natural nano electrical and magnetic signals to function.

Based on many studies, it looks like the most important factor determining health risk is the pulsing and modulation of the signals. The frequency and duration of exposures may be more important than power density of the RF radiation.

Pregnant women, children, the elderly and already ill people are most vulnerable to RF effects. A growing body of science shows that radiofrequency radiation synergizes with already present mold, heavy metals, viruses and cancers to increase the adverse effects.

Find out more about the thousands of studies that show adverse health effects from RF from a myriad of mechanisms. <http://www.5gappeal.eu/scientists-and-doctors-warn-of-potential-serious-health-effects-of-5g/>

In a courageous move to preserve local government control, Federal bill HR 530 was introduced January 14, 2019 in the House of Representatives by California Congresswoman Anna Eshoo, to invalidate the Federal Communications Commission's (FCC) September 26, 2018 ruling to accelerate the deployment of 5G small cells throughout the U.S. Congresswoman Jackie Speier has co-sponsored the bill.

Representative Eshoo stated the FCC had *'failed to listen to reasonable input from communities across the country, cowered to industry interests, and failed to put the public interests first.'* In a January 15, 2019 **press statement** Eshoo added, *"Having served in local government for a decade on the San Mateo County Board of Supervisors, I understand and respect the important role that state and local governments play in protecting the welfare of their residents,"*

Please help celebrate my birthday - come to the Civic Center Feb. 5th. 5:30 pm.! Car pools anyone?
