BAKERS NEEDED

September 2nd is Labor Day, yay!
As usual, there will be lots of food .
I am looking for people to bring to the dessert table home baked sweets .
Volunteers to help run the dessert table for an hour or two are also needed. (approx. 4-6pm)
People will so enjoy eating the goodies and we will all have a lot of fun!

All proceeds benefit BCC.

Call 868-9052 to offer help!

Thank you, June McAdams

BOLINAS COMMUNITY PUBLIC UTILITY DISTRICT
 BOX 390 270 ELM ROAD BOLINAS CA 94924

PLEASE RESPECT OUR COMMUNITY AND YOUR NEIGHBORS AND DO NOT DUMP GARBAGE ON THE SIDES OF OUR ROADS OR GREENWASTE OFF OUR BLUFFS!

At the July 24, 2013 BCPUD Board of Directors meeting, several residents were present to express their concerns about the unwanted items that have "appeared" in recent months along the sides of our roads on the Big Mesa. Most of the unwanted items, often labeled "Free", are really garbage that should have been disposed of properly and not left on the side of the road for someone else to throw away. For nearby residents, these unwanted items degrade their neighborhoods and ultimately force the residents to take on the unpleasant task and expense of hauling the garbage away. Please respect your community and your neighbors and do not leave unwanted or garbage on the sides of our roads.

In addition, these residents reported that unknown persons have been dumping greenwaste off the ends of the bluffs at the edges of the Big Mesa. This is particularly disheartening given the convenient presence of the Resource Recovery site on Olema-Bolinas Roads. Please respect your community and your neighbors and do not dump greenwaste off our bluffs.

Thank you,

Jennifer Blackman
 General Manager

bringing order to your financial world

**Bolinas Community Public Utility District
A Regular Meeting Of The Board Of Directors
July 24, 2013 · 270 Elm Road, Bolinas**

1. Call to Order.

7:32 p.m.

2. Roll.

Directors Amoroso, Kimball and Smith present; directors Bender and Siedman absent. Director Amoroso presiding.

3. Manager's Report.

-- Update on the Terrace Avenue Water Main Relocation Project.

Staff reported that the district received its second reimbursement check from the California Department of Public Health ("CDPH") today, approximately two months after submitting all of the required documentation, and payment therefore was made immediately to the district's contractor, W. R. Forde. Staff thanked W. R. Forde for its patience and its good work thus far on the project. As of now, the project is nearly complete, with only the paving and a short "punch list" of items remaining to be done.

-- Update on the Terrace Avenue Bluff Stabilization Project

Sanders & Associates Geotechnical Engineers ("SAGE") submitted its final geotechnical investigation report yesterday. Staff will circulate the report and include an item on next month's agenda for the Board to accept it. Staff presented a short summary of the payments made to SAGE by the County, the BCPUD and the Fire Protection District for its investigation work and final reports on the condition of the bluff below Surfer's Overlook. In brief, the County has expended \$57,386.94, the BCPUD has expended \$52,386.92 and the Fire Protection District has expended \$5,000. Director Kimball requested that the staff report on the source of the BCPUD's expenditures (whether from reserves or operating funds) at the next meeting.

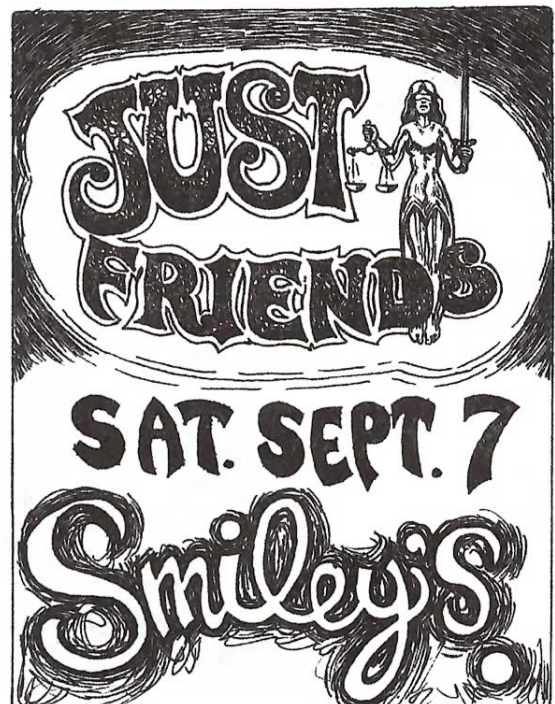

-- Update on the Wastewater Treatment Plant Pump Station and Electrical Upgrade Project.

Staff reported that the district's engineer is revising the bid documents to include an alternative installation concept as discussed at last month's meeting.

-- Update on Shared Personnel Between BCPUD and Bolinas Fire Protection District.

Nothing to report. Staff said the two districts likely will begin their joint training after the summer due to vacation schedules.

Staff reported that consumption in downtown Bolinas during the quarter ending in May 2013 was the highest since water rationing was imposed in early 2009. However, consumption since then has declined as customers have adjusted their water use in response to the district's requests for conservation; staff thanked the district's customers for their response to these requests. Although the Arroyo Hondo creek received a nice recharge as a result of the late rains in June, the creek flows since have fallen and the district is increasingly reliant on its emergency stored water sources in Woodrat reservoirs #1 and #2.

Staff directed the Board's attention to the district's 2012 Consumer Confidence Report, which was mailed out to all customers last month, as well as two notices concerning haloacetic acid levels in the district's treated water. Staff noted that the district has begun its pilot study to determine whether nanofiltration is a viable solution to reduce chlorine disinfection byproducts in the district's drinking water; staff will update the Board as results of the study become available.

As directed by the Board last month, staff faxed letters opposing the relocation of the state's drinking water program from the CDPH to the State Water Resources Control Board and copies of the letters are in the Board books. Staff noted that CDPH also responded to the federal EPA's notice of non-compliance and a copy of the CDPH's corrective action plan is in the Board books, as well.

Staff has updated the district's "new customer" mailer and requested the Board submit any comments or revisions as soon as possible. Staff reported that ACWA/JPIA provided a Defensive Driving class at the BCPUD on June 13, 2013 and conducted a risk assessment; a copy of the follow-up letter summarizing the site visit is in the Board binders. ACWA/JPIA also sent out a memorandum concerning the renewal of the members' workers compensation insurance, and there are no changes in rates this year.

On the wastewater side of operations, staff is focused on completing the bid documents for the control panel replacement project. Flows into the collection system continue to be low. Mowing of the sprayfields is scheduled to occur after the first of August.

Director Bender joined the meeting by telephone at approximately 7:55 p.m.

-- Drainage Project Manager's Report.

The Board received a written report from Drainage Project Manager Lewie Likover.

4. Community Expression.

None.

The Old Way at the Dance Palace

TONIGHT! Friday, September 6 at 7:30

First show in fall series of Fresh Locally Sourced Free Range Music from West Marin.

The West Marin based acoustic songwriting duo of Joshua and Irena Smith known as 'The Old Way' sings and plays with a lush, potent, and emotionally overt songwriting style. One which embraces all things melodic in the midst of ardent, exploratory improvisations and tightly-knit vocal harmonies.... Their music draws heavily on sentiments of bygone eras, employing plain language, and simple, emotive forms.

The Old Way's original songs move through a series of stark and nostalgic scenes reflective of their home surroundings in West Marin. The music of The Old Way is replete with spacious feels, and anchored by melodic acoustic guitar and vocals. In the Fall of 2012 'The Old Way' released their first full length record and toured throughout the U.S. in support. The duo is currently preparing to head north for a short stint performing in the Pacific Northwest later in September. More info available at www.TheOldWayMusic.com.

Tickets are \$10 general, \$8 seniors and are available at the door. The Dance Palace is located at the corner of 5th and B Streets in Point Reyes Station.

Report from the Peoples Store 8/30/13

Week of fifty year anniversary of " I Have a Dream" speech

We will have The Parkside Bakery hearth breads next Wednesday. These breads are a harmonious combination of old world style, evolved modern technique and local naturally cultivated yeast of Stinson Beach. Try to notice how beautiful each loaf is before gobbling up.

Tommy announces whole heartedly, not half assedly that two and a half year old Orian Springer-Lich is now dropping in on the half pipe at the skate park and also caught his first wave this month!

Clover has low fat milk in a size called thirds (third of a quart) and a smaller size whole milk called a half pint. (a fourth of a quart) They made the container look way smaller than a normal half pint. When you line 'em up side by side they just can't be the same size. Customers bring their own bottles and jars in to refill. Take a breath and guess what size container it is. Some are shaped like maple leaves.

In Scotland a measure of whiskey is called a half, which is actually a half a gill. (pronounced Jill) A gill is equal to a quarter of a pint. I'm confused. A typical order would be, "I'll have a pint and a half lassie." And that's not a yogurt drink. It means a pint of beer and a gill of whiskey.

Reminds our Charlie of a song. "my wee man's a soldier, he comes from Mary Hill he gets his pay on a Friday and he buys a half a gill he goes to church on Sunday half an hour late he pulls the buttons off his shirt and he puts them in the plate

-Submitted by Di-Fi Finland

Cont. from p. 3

Greg Schank appeared on behalf of the homeowner and explained that the project is limited to a 189 square foot addition to an existing 209 square foot studio; the studio will be improved to include a bathroom and small kitchen. The homeowner currently has an expanded water use permit which limits quarterly water use to 2340 cubic feet. The Board briefly discussed the project and the amount of water allowed pursuant to the community average of 2260 cubic feet per quarter.

B. Kimball/D. Smith four in favor, director Siedman absent to approve an expanded water use permit with a maximum quarterly usage of 3390 cubic feet, which is the community average plus 50%.

8. Request for Community Discussion re: Items Left on Public Roads In and Around Bolinas (I. Hartmann).

Ilka Hartmann was present and said she asked for this agenda item as she would like people to be more respectful of the community and stop leaving trash along the side of the road. She also expressed concern about people dumping greenwaste over the bluffs. Jim Marcus expressed support for Ilka's concerns and noted that garbage frequently is left on Elm Road under the trees adjacent to the BCPUD property. Discussion ensued about the nature of items left on the side of the road; sometimes the items are not garbage, but often they are (e.g. used mattresses and the like). The Board directed staff to submit a notice in the Hearsay News asking people not to leave garbage on the roads or dump greenwaste over the bluffs. Staff also was directed to install signage along the trees on the BCPUD property stating that no dumping of garbage or other unwanted items is permitted.

5. Request for Financial Relief from Quarterly Water Bill pursuant to BCPUD Resolution 553 – 288 Larch Road (J. Mattingly).

Staff reported that this customer, who cannot be present due to medical issues, submitted a written request for financial relief due to leaks at her home caused by a broken hot water heater.

D. Smith/K. Bender four in favor, director Siedman absent to grant full financial relief and reissue the bill in an amount based on the historic average use at the property for the past three years during the same quarter.

6. Request to Suspend Sewer Connection (L. Ferlinghetti).

Lorenzo Ferlinghetti submitted a request to suspend his sewer connection until such time as he is able to obtain a potable water supply at his property. After a brief discussion, the Board referred the matter to the Board's Sewer Committee.

7. Expanded Water Use Permit – 270 Laurel Road (F. Vietor).

BPUD minutes conclude on page 7

**Blackberry Farm Barn blow through.
Saturday August 31 Sunday September 1**

No estate or garage have we
Just the old farm filled with debris.
Though within the stalls and trees
Hide some treasures and memories.
Much too old to know what or when
On they must go to begin again.
So on Saturday and Sunday too
Come search and find some treasures for you.
The farm will open from ten to three
After which - it is time for tea.

Aggie Murch

BOLINAS BURIAL

The woman sinks to her knees,
Supported at her elbows, by two men
Who came to her side when she looked like she might fall.
And she takes up a little dirt from the pile
And hesitates a long time to extend her arm
To the open pit--some force it seems resisting that
Little two foot extension that will bring her hand
Above the open pit--one of the men at last
Taking her wrist and gently guiding her there.

And the mist of dust sifts down through air
And disappears into the pit. And we--
We people gathered round, who loved this man,
And saw him labor year after year
To pull this woman from the mortal sickness
That afflicted her, and now, ironically,
He suddenly gone before--

We, the arc of people who surround
This woman--standing, kneeling, sitting
On the grassy slope, the cypress and
The eucalyptus tall above--the people curved
Like arms around her--people who
Have brought the family food for weeks,
Who built a ramp to wheel her ailing husband home,
Who have done a dozen little kindnesses
In weeks gone past, and will in weeks to come--

That arc of people when they see
That drift of dust go sifting down at last--
Not one of us that doesn't feel
The spasm clutching in the chest:
Oh, Jim!--musician, painter, brother,
father, lover, husband, gentle man--

A gentleman...a gentle man--our Jim...

9. Concerns re: Lease between the BCPUD and Gospel Flat Farms (J. Aroyan).

Janine Aroyan and several other community members were present to discuss concerns they have about the lease between the BCPUD and Gospel Flat Farms. Janine said that she is not opposed per se to the farming activity allowed under the lease, but that she does have concerns (which she wrote down and provided to the Board) about how those activities are being conducted. Janine said that she wants to be sure that the public's right to a beautiful aesthetic experience when walking the property is preserved and she suggested that the BCPUD increase it's oversight over the leased property. Discussion ensued, with various community members adding input. Director Amoroso suggested that the Board form an ad hoc committee of people interested in the management of the sewer pond land; he said the committee should consist of two Board members, BCPUD staff, Mickey and/or Don Murch, and interested community members. The following persons volunteered to serve on the committee: Ken Masterton, Genie McNaughton, and Tish Brown. Director Bender supported the concept of a committee; she said Janine raised good points and that perhaps an addendum is needed to the lease to ensure her concerns are addressed. Ken Masterton said he thought BCPUD was well-intentioned when granting the lease, but that it needs to exercise more oversight to ensure its land is properly managed. Ken suggested that some of the farming activities conducted to-date may exceed the permission granted under the lease. Bill Pierce said that the staff has begun to address these concerns with Mickey Murch and he feels significant progress has been made. Director Amoroso encouraged the committee to approach the concerns in a cooperative spirit.

10. Firehouse Community Park Agency (Mesa Park) – Water Use at the Downtown Park.

Director Amoroso said that he regularly attends the Mesa Park Board meetings and there was an intense debate at the last meeting over water use at the downtown park. Director Amoroso reminded the other Board members that

when the Board issued an expanded water use permit for the development of the downtown park a couple of years ago, it did not impose a cap on water usage at that time but rather specifically reserved doing so until a representative water use was established. Director Amoroso said that the Mesa Park Board members had said that a representative would attend tonight's meeting to discuss this topic, but that no one is present; as such, he recommended the Board continue this item to a future date. There was no objection.

11. Continued Review of Expanded Water Use Permit Limits and Historical Actual Water Use.

Director Smith said that he presented a one-page graph at last month's Board meeting which depicted the district's current overall water consumption based on the quarterly water use data of all customers for the last four years. At that meeting, director Kimball asked if there were differences in consumption between expanded water use permit holders and other customers; in other words, she asked if customers without water use limits are using a lot more water than those with limits. Director Smith therefore plotted additional data to compare the water usage of permit holders and of non-permit holders and concluded that the consumption patterns are nearly identical, particularly on the high end; he noted that almost no permit holders are exceeding their limits, which is good news. Director Bender thanked director Smith for his detailed analysis and said it was very encouraging.

12. Resolution 620: Approving the 2013-14 District Budget.

B. Kimball/D. Smith four in favor, director Siedman absent to approve Resolution 620.

13. Resolution 621: Replaces Resolution No. 614, Stating the Current Rates and Charges for District Services and Authorizing Placement of Charges on the Marin County Property Tax Bill Where Appropriate.

B. Kimball/D. Smith four in favor, director Siedman absent to approve Resolution 621.

14. Update on Water Supply Augmentation Project.

The Board reviewed the latest analysis from consulting hydro-geologist Rob Gailey.

15. Volunteer Committee Reports.

- *Alternative Energy*: Nothing to report.
- *Bolinas Lagoon Advisory Committee*: Nothing to report.
- *Community Path Update*: Nothing to report.

**UPDATE ON BOLINAS PAVING PROJECT
(WHARF, OLEMA-BOLINAS AND
HORSESHOE HILL ROADS)**

**AVAILABILITY OF
ASPHALT/CONCRETE GRINDINGS**

As a reminder, the County's contractor, Ghilotti Brothers, will begin the paving project in Bolinas on **Monday, September 9, 2013**. The paving will begin at the end of Wharf Road (which will take approximately three days), and will proceed out Olema-Bolinas Road and Horseshoe Hill Road. The total time estimated for digouts, grinding and paving in Bolinas is approximately two weeks.

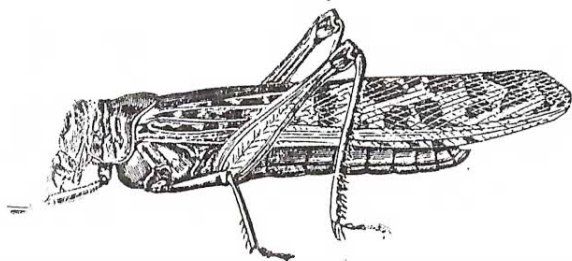

Ghilotti Brothers will be delivering the asphalt concrete grindings from this project to the Mesa Park parking lot. Once the deliveries are complete, the grindings will be available for use by Bolinas residents to improve the public rights-of-way on the Mesa. (The asphalt concrete has been tested and the lab test results of the material were all below applicable contaminant limits.) Local contractors are available for hire to haul and spread this material to improve Bolinas roads. An updated notice will be published to confirm when the grindings are available.

Please call 868-1224 with any questions. Thank you!

THE PROPOSAL TO POISON A WILDLIFE REFUGE

Here is the petition at Wildcare.

Dear Mr. McChesney:

As a supporter of WildCare, and someone who cares about wildlife in California, I am writing to express my deep concern over the proposed "South Farallon Islands Non-native Mouse Eradication Project."

The proposal and draft Environmental Impact Statement list two "action alternatives" for eradicating the non-native house mouse (*Mus musculus*) from the island habitat. One alternative relies solely on the aerial dumping of loose pellets of toxic Brodifacoum 25-Conservation or Diphacinone D50 Conservation rodenticide indiscriminately across the islands and the other alternative is to do nothing.

Surely there must be a reasonable alternative between these two extremes of action or no action. The introduction of Brodifacoum or Diphacinone into the delicate ecosystem of the Farallon Islands can only lead to significant environmental damage, death and destruction. It cannot be the only alternative.

The Project (quoting the scoping document) proposes to "help protect and restore the ecosystem of the South Farallon Islands," and claims that rodenticide dumping "will provide a high likelihood of success based on similar projects elsewhere while minimizing incidental impacts to other resources."

Unfortunately evidence from similar projects, including a 2008 "Rat Island Rat Eradication Project" powerfully demonstrates that aerial rodenticide dumping exacts an extremely high toll on "other resources," including non-target wildlife. There is also evidence that indiscriminate distribution of rodenticides will neither eliminate a rodent problem, nor prevent the problem from returning.

Arguments in favor of this proposal overwhelmingly focus on the necessity of protecting the many endangered and threatened species that live and breed on the Farallones. It is WildCare's position and mine that, if control of house mouse populations is necessary, then responsible, non-toxic and environmentally sustainable approaches must be used.

The aerial broadcasting of toxic rodenticide pellets over the entire landmass of the Farallon Islands does not fit these criteria, and should not even be considered in the eradication proposal. I strongly encourage you to implement other, more environmentally sensitive alternatives.

Please help maintain the integrity of the incredibly fragile ecosystem on the Farallon Islands, and reject the proposal to aerially spray the islands with Brodifacoum 25-Conservation or Diphacinone D50-Conservation!

Thank you for supporting environmental responsibility and supporting wildlife by rejecting this proposal.
