Thanksgiving 2011

by StuArt

'twas a beautiful Thanksgiving in Bolinas.

The rain stopped and the sun came out. There was a minus tide in the late afternoon and the beach was expansive and empty like a grand boulevard, perfect for strolling in the afternoon sun.

A long beach walk was good for building the appetite. It was a bee hive of activity back at the house. There were 3 or 4 cooks in the kitchen. Grandma and James were in the dining room peeling and chopping.

The young girls were all wearing party dresses. It was a special occasion, a celebration — Thanksgiving.

There was so much food, and twenty people. We ran out of chairs. I had hoped to also attend the Community Center dinner, but I was immobile by the time I cleaned my plate. I sat at my place and enjoyed the scene and gave thanks for what was.

I'd been working on Thanksgiving since Halloween. After the grinning skull of Halloween I turned my attention to gratitude.

I stenciled "Thanks" and "Gracias" on my pants to remind myself to be grateful, and not so critical.

Being critical is the opposite of being grateful. Recently I had been suffering a critical period and bemoaning my fate. Gratitude is the answer.

Giving thanks for what is,

And what is —
is Bolinas.

The good and the bad,
Beautiful and ugly,
the fog and the sun
Bolinas.

SPIRIT HOUSE TENDERS

It is the time of year to think about who will tend THE SPIRIT HOUSE in the year 2012. A few people have agreed to stay on or join the team, but at least 3 more are needed! This is a Spiritual Place for contemplation and honoring of life, recognition of the passing of those we have cared about. Your need to attend to the Spirit House only happens every two months. Town folk and visitors alike seem to be drawn to the space and draw solace from it. For that reason, we like to keep it as nice as it can be to welcome those who benefit from it. If you would like to join this dedicated team of caregivers-call June @ 9052.

WHY WE ARE HERE

As we gather together in solidarity to express a feeling of mass injustice, we must not lose sight of what brought us together. We write so that all people who feel wronged by the corporate forces of the world can know that we are your allies.

As one people, united, we acknowledge the reality: that the future of the human race requires the cooperation of its members; that our system must protect our rights, and upon corruption of that system, it is up to the individuals to protect their own rights, and those of their neighbors; that a democratic government derives its just power from the people, but corporations do not seek consent to extract wealth from the people and the Earth; and that no true democracy is attainable when the process is determined by economic power. We come to you at a time when corporations, which place profit over people, self-interest over justice, and oppression over equality, run our governments. We have peaceably assembled here, as is our right, to let these facts be known.

- They have taken our houses through an illegal foreclosure process, despite not having the original mortgage.
- They have taken bailouts from taxpayers with impunity, and continue to give Executives exorbitant bonuses.
- They have continuously sought to strip employees of the right to negotiate for better pay and safer working conditions.
- They have held students hostage with tens of thousands of dollars of debt on education, which is itself a human right.
- They have consistently outsourced labor and used that outsourcing as leverage to cut workers' healthcare and pay.
- They have influenced the courts to achieve the same rights as people, with none of the culpability or responsibility.
- They determine economic policy, despite the catastrophic failures their policies have produced and continue to produce.
- They have donated large sums of money to politicians, who are responsible for regulating them.
- They continue to block alternate forms of energy to keep us dependent on oil.
- They continue to block generic forms of medicine that could save people's lives or provide relief in order to protect investments that have already turned a substantial profit.
- They have spent millions of dollars on legal teams that look for ways to get them out of contracts in regards to health insurance.
- They purposefully keep people misinformed and fearful through their control of the media.
- They have participated in the torture and murder of innocent civilians overseas.
- They have sold our privacy as a commodity.
- They have used the military and police force to prevent freedom of the press.
- They have deliberately declined to recall faulty products endangering lives in pursuit of profit.
- They have purposely covered up oil spills, accidents, faulty bookkeeping, and inactive ingredients in pursuit of profit.
- They have accepted private contracts to murder prisoners even when presented with serious doubts about their guilt.
- They have perpetuated colonialism at home and abroad.
- They continue to create weapons of mass destruction in order to receive government contracts.
- They have perpetuated inequality and discrimination in the workplace based on age, the color of one's skin, sex, gender identity and sexual orientation.
- They have poisoned the food supply through negligence, and undermined the farming system through monopolization.
- They have profited off of the torture, confinement, and cruel treatment of countless animals, and actively hide these practices.

To the people of the world, We, the San Francisco General Assembly occupying the Federal Reserve in the Financial District of San Francisco, urge you to assert your power.

Exercise your right to peaceably assemble; occupy public space; create a process to address the problems we face, and generate solutions accessible to everyone.

To all communities that take action and form groups in the spirit of direct democracy, we offer support, documentation, and all of the resources at our disposal.

Join us and make your voices heard!
