50 Cents

Imagine the softest of spring skies, that radiant blue colors the five petals of this ephemeral California spring flower. Put a white cloud in the center and you have "Baby Blue Eyes" one of the most beloved of our wild spring blooms. This low growing cluster was photographed in early March in 2014 in the planting along side the bicycle path thru Gospel flats. photo by Kathleen O'Neill

Minutes from the February 27, 2017 Bolinas Fire Protection District Board Meeting. Continued from the Friday, March 31st issue of the Hearsay

GENERAL BUSINESS

Action Item #1- Review of Draft Financial Statements FY 15-16. Lisa Doran presented the audited financial statements and described several sections in detail. It was noted that District revenues decreased by 0.03%, while expenditures decreased by 0.19%. After more discussion between Lisa Doran and the Board, the Draft Financial Statements FY15-16 were accepted. MSC- Kimball / Chiera (unan.) to accept financial statements and approve Action Item #1

Action Item #2- Coordinate Efforts to Designate Bolinas as a High Impact Area for Broadband Availability. Jennifer Blackman, BCPUD, presented information regarding the potential for Bolinas to receive grant funds in order to improve Broadband Internet Service. The California Public Utilities Commission will be determining areas that qualify as "High Impact" in order to be eligible for grant funding. Jennifer feels it will be important to have the Fire District write a

Minutes continue on page 4

Minutes continued from page 3

letter on behalf of the District to express our impacts of having marginal internet access. You will recall, the BCPUD has formed a committee, which Ian Johnson sits on representing the Fire District, in order to explore solutions for the lack of quality internet service, and in many instances, lack of any service at all. MSC- Chiera/Gade (unan.) to delegate Anita in drafting a letter to the CPUC, approving Action Item #2.

Vice Pres. Chiera expressed his appreciation to Jennifer Blackman for taking on this project and asked if personal letters also help to get the grant funding.

Jennifer said she will try to find out, and that there is no guarantee we would get the grant. However if we did, it could mean much better internet service for Bolinas and at a fraction of the cost.

Action Item #3- Coordinate efforts with Local Agencies to Request CalTrans Repair to Hwy 1 Flooding near Audubon Canyon Ranch.

Water runoff from heavy rains this winter has caused a constant flooding problem on Highway 1 just south of the Wye near Audubon Canyon. The constant flowing and standing water as well as debris has made the road impassable at times to smaller vehicles, and causes vehicles to travel in the opposite lane as they try to avoid the water. CalTrans has been approached but has stated that no fix for the area will be forthcoming until it is deemed a hazardous situation. In speaking with Veronica Pearson, Marin County, about the Lagoon Restoration Project, she identified a CalTrans representative, Dir. Bijan Sartipi, who would be responsible for the area. Mr. Sartipi was scheduled to attend the West Marin Community Life and Tourism Forum on the evening of the 23rd so Jennifer Blackman wisely sent him an email regarding our concerns and included pictures. The BCPUD has started to coordinate with the School District, whose bus route is adversely affected by the flooding, as well as Audubon Canyon Ranch and Marin County, and would like the BFPD to join the efforts to persuade CalTrans to fix the problem now.

Dir. Kimball asked what the criteria for an emergency would be.

Chief Brown said CalTrans has not given that information.

MSC- Chiera/Kimball (unan.) to authorize Chief Brown to coordinate efforts with the BCPUD and to co-author a letter to CalTrans

Dir. Shaw mentioned it would be good to make copies of the letter and let other people sign to send to CalTrans

Chief Brown said she would check to see if that would be ok to do.

Dir. Kimball said he appreciates that Jennifer Blackman and Chief Brown work so well together.

Chief Brown agreed it has been helpful working with Jennifer.

Action Item #4- District Committee's Scoping Study Results. Board of Director's will review and prioritize items for further study.

At the regular Board meeting held in January, Chief Brown was directed by the Board to meet with each of the Districts' three committees to discuss and identify important issues they feel the District will need to plan for in the next 2-5 years. During the week of February 13th, Buildings and Grounds, Finance and Budget and Personnel Committees all met and identified areas of concern. Chief Brown forwarded a memo to the Board prior to this meeting outlining each of the committees concerns. Top issues included succession planning for the Chief's position, Firefighter recruitment and retention, identifying if there is a need for additional staffing, financial modeling for potential scenarios and long term maintenance of District facilities. Dir. Kimball emphasized the need for a succession plan on the board level as well. Three member's terms expire in 2020 while two expire in 2018. Chief Brown also explained that she has formed an Operational Working Group consisting of firefighters and officers to discuss operational needs of the District including apparatus replacement, volunteer recruitment, officer development and staffing. The Board was in agreement that these issues are critical to the future of the District and instructed Chief Brown to continue to meet with all four groups and bring updates to the regular meetings each month.

MSC- Bass/ Kimball (unan.) to approve Action Item #4 tasking the Fire Chief with continuing to meet with the committee's and to prioritize items of concern to the District in the next two to five years.

CONSENT CALENDAR

MSC, Chiera/Gade (unan) to approve the Minutes from the January 23rd Regular Meeting and approval of the warrant lists from January 18th – February 21st 2017.

MSC- Bass/ Kimball (unan.) to approve the financial reports for October, November and December 2016, and the account balances.

Mediterranean Diet and Brain Volume; Red Meat and Diverticulitis

People who follow a Mediterranean diet seem to retain more brain volume as they age, compared to people who don't follow this diet. A recent study from the University of Edinburgh in Scotland, published in the journal *Neurology*, followed 967 people without dementia, around age 70, testing them at 3 years and again at 6 years. The subjects had an MRI brain scan at each follow-up. The scans measured overall brain volume, grey matter volume and thickness of the brain's cortex. The measurements were compared to how closely the subjects followed a Mediterranean diet. People who didn't follow the diet closely were found to have a higher loss of brain volume that people who followed it more closely. The researchers adjusted for other factors that could affect brain volume, such as such as age, education, and having diabetes or high blood pressure. The researchers concluded that the diet may be able to provide long-term protection for the brain, but more studies are needed to confirm the results.

The Mediterranean Diet includes large amounts of vegetables and fruits, olive oil, beans, cereal grain such as wheat and rice, moderate amounts of fish, dairy and wine, and limited amounts of meat.

Diverticulitis A recent study from Harvard, published in the journal *Gut*, suggests that eating red meat is associated with an increased risk for developing diverticulitis. Diverticula are small, bulging pouches that can form in the lining of your digestive system. They are found most often in the lower part of the large intestine – the colon. Diverticula may never cause problems. However, one or more of these pouches may become inflamed or infected; this condition is known as diverticulitis. Diverticulitis can cause severe abdominal pain, fever, nausea and a marked change in your bowel habits. Mild diverticulitis can be treated with rest, changes in your diet and antibiotics. Severe

or recurring diverticulitis may require surgery. The Harvard researchers analyzed health and diet information reported by more than 46,000 men over 26 years. Men who ate the most red meat per week (about 13 servings) were 58% more likely to develop diverticulitis during the study period, compared to men who ate the least red meat. The association was strongest with steak. The risk went down when people in the study substituted poultry or fish for red meat. Dr. Andrew Chan, the lead author of this study, wrote "There is an idea that there is some pro-inflammatory state mediated by red meat that could contribute to inflammation in certain organs, Diverticulitis is a clear example of inflammation with serious consequences."

Dear readers – there is an obvious take home lesson from these studies – eat thoughtfully! Don't forget that the helpful probiotic bacteria in your gut love fiber – found in vegetables, beans, fruits and whole, unprocessed grains.

OLLI - The Gods are Us: Classical Greek Myth & Story

- Friday, March 31, 1:30 PM to 3:15 PM
- Friday, April 7, 1:30 PM
- Friday, April 21, 1:30 PM
- Friday, May 5, 1:30 PM
- Friday, May 12, 1:30 AM
- Friday, May 19, 1:30 PM

Our Ancestors write the myths and stories that shape how we see the world. In the European tradition, most of the allegories for our our minds and hearts were given to us by the Greeks. Let us remember the myths of Zues, Athena, Aphrodite, Aplollo, Hades Demeter, the tales of Homer and Ovid. We will consider the uses of myth in art, and follow it into the dark burrows of our subconscious. Monsters, stupid gods, ravishing women, ravished men, lustful rivers, and impossibilities that could not be more true. Instructor: Douglas Kenning, PhD Fridays, March 31-May 12, 2017 (no class April 28) Osher Lifelong Learning Institute OLLI is an academic program of Dominican founded in 2004 and supported by a generous endowment from the Bernard Osher Foundation, the generosity of the university, and member donations and tuition. The program offers four, six and eight-week, challenging, non-credit liberal arts courses for adults over 50 as well as workshops and clubs. <http://www.dominican.edu/academics/osher>

LOST AND FOUND

LOST: THREE KEYS SOMEWHERE IN BOLINAS OR
 Stinson, on simple wire key ring. Two of these are ordinary
 looking, but the third key is much larger, oddly shaped, and a
 kind of grayish steel color.. They are very important to me.
 Richard Pfeffer 868-2103

RP 4/3

FOUND: FREINDLY CREAMY COLORED CAT
 (part Siamese?). Found on vacant lot sunning itself. Eyes
 weeping and needs care. Disappeared when we returned with
 food and water. Call 868-1321

3/31

LOST: GOLD EARRING ABOUT 1 INCH LONG.
 It is flat & sort of oblong with scalloped edges. It separated from
 the holder in my ear and fell out somewhere last Saturday
 possible when I was at the Mardi Gras Dance. This is the only
 memento I have from my Algonquin grandmother who is
 wearing them in the one photograph I have of her.
 Hope to find it. Martine 868 9036

MA 3/17

LOST: 4 RINGS, 1 PAIR GOLD EARRINGS. IF YOU found
 these items in a pair of socks wrapped in Jewelers cloth, please
 contact Connie-415-847-7103. Reward if returned- I donated a
 bag of clothing to the Free Box in January or February.
