**Wilder Than Wild: Film Screening & Panel Discussion  
10/19/2018 - 7:00pm**

WILDER THAN WILD: Fire, Forests and the Future is a one hour documentary by filmmakers Stephen Most and Kevin White that reveals how fuel build-up and climate change have exposed Western wildlands to large, high intensity wildfires, while greenhouse gases released from these fires contribute to global warming. This vicious cycle jeopardizes our forests and affects us all with extreme weather and more wildfires, some of which are now entering highly populated wildland-urban areas. This screening will be followed by a panel discussion featuring the filmmaker, local officials and fire control experts. The screening is free with donations requested. This event is sponsored by the Dance Palace, KWMR, the Inverness Foundation and the West Marin Rotary Club.

Location: Main Hall

**School Board Candidate Statement - Stephen O'Neal**

Dear Neighbors,

I am running for a seat on the Bolinas Stinson School Board. As I don't believe in making important decisions with limited information, you can go to [www.VisionForCommunity.org](http://www.VisionForCommunity.org) to learn more or feel free to contact me.

My wife, Nui, and I are parents of three young children ages 3, 5 and 5. We moved here with considerable intention, to raise our children in a small community, in a natural environment, and where virtually all the children went to the local public "community" school.

Addressing the housing problem for school staff and families is a major focus of mine. There are not enough kids and the trend has not been good. Eventually, with no kids, there will be no school.

Other priorities will be to increase parent involvement (especially Spanish speaking) and to help raise the academic bar in any areas we fall short. We're a small, agile school that can implement creative ways to effectively monitor individual student progress and offer everyone a well-rounded, solid educational experience.

With all our children in the lower grades, I have a great view of the daily comings and goings on the Stinson Campus in particular, where almost half the students are. I also like the idea of further uniting these two unique towns, so it seems prudent to have at least one board member representing the Stinson Beach community.

As for my background, I grew up in Peterborough, New Hampshire and moved to the Bay Area in 1990. I have lived in Berkeley, San Francisco and on a houseboat in Sausalito that we designed and built. I have worked for myself as a designer and contractor, created two tenancy in common communities in San Francisco, and had a number of entrepreneurial adventures. Over the years, I've employed about 250 people full time, from whom I have learned a great deal.

I've also worked closely with former leaders of Burma's '88 generation uprising, co-leading the protests when the Olympic torch came through San Francisco. They directly inspired me to later work for the UN in Burma, and in 2008 helped get me into the country at a time when it was closed. I led initial assessment teams after a major humanitarian disaster, precipitated by Cyclone Nargis.

Personally, I'm passionate about learning, evolving and helping others. I think a lot about what true community ([www.visionforcommunity.org/on-community](http://www.visionforcommunity.org/on-community)) really is and how I can help cultivate it.

In my experience, great ideas emerge from committed people, with differing backgrounds, openly and thoughtfully working through, and often disagreeing on, important issues in an effort to get the deepest understandings and the best outcomes. To my mind, this community has a vast amount of untapped potential.

To increase my odds, if there are candidates you are neutral about, consider voting for just the one or two of us you are most enthused about. And, if you have questions or ideas, please feel free to reach out to me directly as I'd be happy to meet. Thank you,

Steve O'Neal  
415-531-1946  
[stepheneal@gmail.com](mailto:stepheneal@gmail.com)

**VOTE NO ON MEASURE X**

The Measure:

"Shall the County of Marin enact a resolution pursuant to Marin County Ordinance 3662 to include Brighton Avenue, Park Avenue and Wharf Road in downtown Bolinas as County roads on which there shall be no overnight parking of vehicles, except for automobiles, motorcycles and pickups, between the hours of 11:00 p.m. and 5:00 a.m.?"

This measure's prime motivator is the elimination of overnight camping in vehicles.

Homelessness is a grave and massive problem and is increasing every day across the country. What we as a socially conscious community can do as an immediate alleviation, an actual - if partial - solution to homelessness is to allow people who have mobile homes to live in them. A mobile-home is a home! To vote against this measure is the simplest, singular gesture that is effortless. There has always existed in Bolinas a homeless and transient population, many of whom become known by name and respected. This is an intrinsic component of our colorful ways; this exclusionary ordinance runs counter to our town's time-honored character. With the rest of the country closing its shutters, we have thus far retained the distinction of being the haven of a rare free spirit. During the drafting of the Bolinas Community Plan in 1974, a constant consideration whenever a major change was being discussed was whether it would "damage the existing character?" [of the town] (p.21, BCP). Our town's character is based upon the inclusion of all who wish to remain peacefully here regardless of their economic standing.

Acceptance engenders peace. Crime is bred out of dejection and alienation. As a self-governing and largely crime-free community, we don't need this ordinance. A Mobile Home Is a Home. Vote NO for No Homelessness.

- Ananda Brady

**BOLINAS: At 2:27 p.m. all was quiet at the beach.**

...a socially-acknowledged  
nature-loving town because to like

Do you remember the news from 1989? What happened to all the emigrants to Petaluma? Did Donald T. ever pay them? - Best regards, Dieter Tede

# Trump to build condos for hippies

## Bolinas Learns 'Art of the Deal'

BY DEAN GRAVES

In what experts are calling a classic case of "opposites attract," the town of Bolinas was recently sold to Donald Trump for an undisclosed price reported to be in the large eight figures.

The town, long noted for its antipathy and antipasto, will be renamed Trump Town. Plans call for Bolinas to be completely leveled and all its citizens to be relocated to Petaluma. There, Trump plans to build a glitzy 40-story hippie commune for Bolinas refugees, each of whom will now be a millionaire.

It's an odd twist of fate for a people who for so long stood steadfast against the commercialization of their tiny community.

For years, they systematically removed the road signs directing traffic to their town and coerced printers into removing the town's name from most of the nation's maps, placemats and cocktail napkins. Gas station attendants en route to the town were reportedly paid large sums of money to shrug and turn away when asked, "Which way to Bolinas?"

During the go-go days of the 1980s, while the rest of the world ran headlong in the pursuit of the almighty buck, Bolinas held out. Now it appears they were holding out for a reason — a reason the rest of America can accept and appreciate. They wanted to "do a deal."

But not just any deal. It had to be a very big, fat, juicy deal, a killing, a "set for life" kind of deal, a deal to raise eyebrows and make brokers whistle with admiration. If dealing is art, then who better to triumph than a colony of artists. Bolinas set its sights on the Michelangelo of the deal: Donald Trump, developer, barbarian, Hero of Our Age.

What first caught Trump's attention were the early reports of Bolinas as the town that was not for sale to developers. The very words "not for sale" were to Trump like waving a red flag in front of a raging bull. He wanted Bolinas more than he wanted the head of Mayor Koch. He also wanted it for his wife, Ivana, who thought the name Bolinas sounded "cute."

Meanwhile in Bolinas, they didn't return Donald Trump's phone calls. Sychopants and toadies the world over went into false labor upon hearing this news, but the strategy paid off. He met their exorbitant asking price.

As Daryl Eagleflower Corn-

BY ELIZABETH LADA/THE CHRONICLE

...one of the hundreds of Bolin-unofficial mayors recently said: "People thought we were crazy. Ha, ha, ha, ha, ha, ha, ha, ha! Oh, where was I, yeah, that's right, because we didn't call back Donald What's-His-Name. Well, I'll show you crazy." He pulled out a wad of money that would earn the instant respect and total admiration of everyone living paycheck to paycheck. "Now, instead of crazy, people call us eccentric."

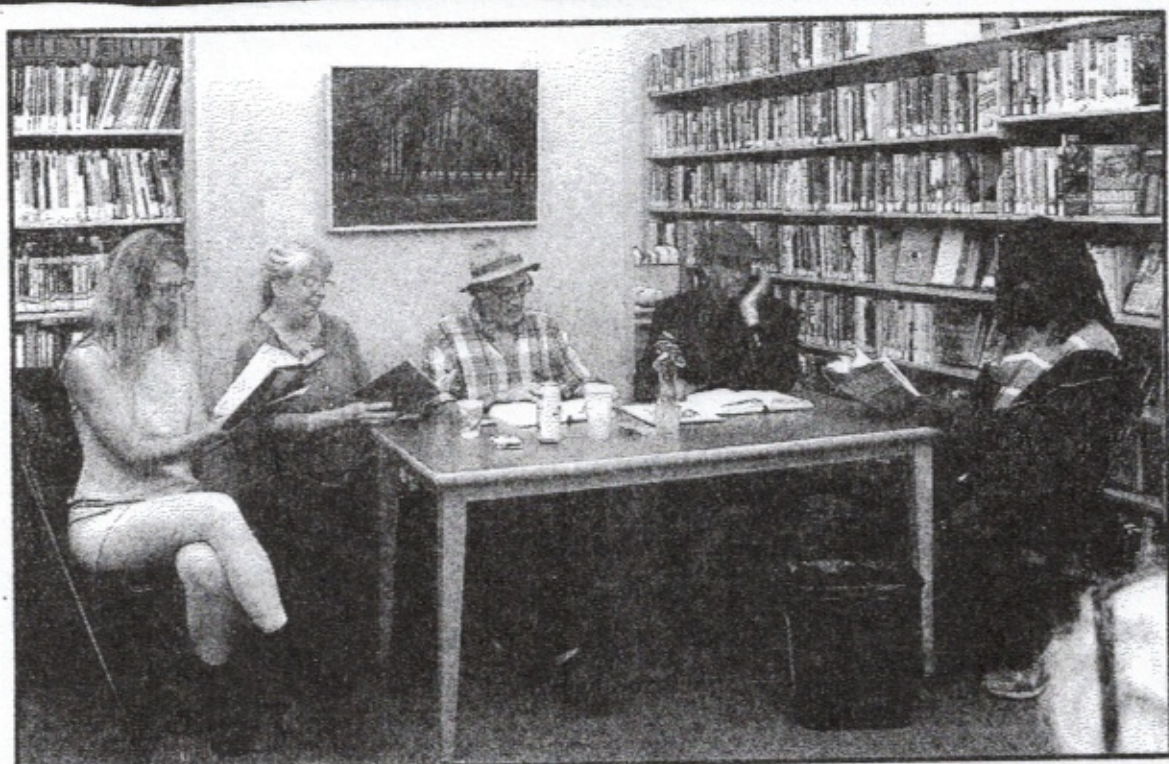

Apparently, the Japanese had also long coveted the idea of buying Bolinas, considering it California's third eye. The news that the town had been sold to Trump was met with bitter disappointment by the members of the powerful island nation. In a knee-jerk reaction, they quickly negotiated the purchase of

Stockton and Modesto.

In New York, Trump unveiled his plans for Trump Town at a press conference. Calling it "my kind of town," he pointed out the features of his profile in the skyline formed by its new towering buildings. The town will also feature a dress code requiring all inhabitants to wear power ties.

Calling it "first class all the way," Trump said his new takeover was a forerunner of a coming trend among billionaires to buy and personally monogram vanity towns across the country. Although Trump Town is not for sale, he did indicate that every town has its price.

## Deadly disease is taking rising toll of sea lions

By Peter Fimrite

Hundreds of California sea lions have been stricken by an often deadly bacterial infection and are washing ashore daily up and down the coast, raising fears among biologists that an already soaring death toll could continue to rise.

Veterinarians at the Marine Mammal Center in the Marin Headlands so far this year have treated 220 sea lions for the malady known as leptospirosis, a pathogen that causes liver failure.

The outbreak, to date, is the second-largest since state officials began keeping track of the infectious disease in 1970, but the numbers are growing. The sick and dying sea lions were
