Dear Friends,

Lisa Townsend and I are working on a benefit performance for the Bolinas Community Land Trust scheduled for February 9, 2018. As you know, the BCLT has been providing affordable housing to community members for over thirty years and has great plans to expand their offerings in the future. We are please to be able to support this fantastic resource.

The theme for our performance is "Home." As we develop this show, we thought that it would be fitting to ask you, community members, what "Home" meant to you. We would appreciate any thoughts that you would be willing to share. Your comments can be anonymous and as short or rambling as you'd like.

You can send your comments to: zaccho@earthlink.net under the heading of "Home"

THANK YOU!
Joanna Haigood

ONCE UPON A DREAM. . . BEYOND A REASONABLE OMELETTE

(“The Future ain’t what it used to be!” Yogi Berra)

Adam awoke overcome by the wonder of this world!

The first dawn pouring golden light from the sun!

Oh how wonderful to bask in the warm glow of life!

Now let’s see, how about a nice Fontina cheese, fresh

Basil, garlic, saisa omelette! Ah yes, the world is really

Like an egg. . .It can contain life, it’s very strong, yet

Very fragile.

This whole universe could be a simulation, like some-

One flicking a switch and your reading in the dark!

Abraham’s three religion omelette is a favorite with

Most people, yet the amageddeion omelette is an end

Game story whether you believe it or not!

Personally, I like green onions, mushrooms and pickled

Tomatoes for my omelette. Some how our species is

Always reaching for that golden egg which is uneatable!

Climate change, global warming and CO2, seasoned with

Fukushima, creates a totally toxic omelette.

As we wander into the twilight of our extinction. . . the

night falls as an embryo of light. . . then the germination

of the dawning light bursts the seed forth to the blossom-

ing of life, a world of it’s own coming to being!

Sometimes a five minute boiled egg is good when your

In a hurry! However I worry about it rolling off the table,

Very much like an asteroid cracking the earth into an early

Winter. Then there’s sunny-side up, our sun in a few

Million years will make it’s own solar omelette!

It’s best not to worry about the things you can’t change,

Even if we don’t know the dangers of scrambled worlds,

Cowboy potatoes, coffee, tea, toast and marmalade

Milky ways! With billions of planets, it’s a wonder we

Evolved with such small odds! However, with billions upon

Billions of galaxies, there’s maybe a billion earth like eggs

Out there! If evolution happened on this planet chances

Are, other planets have experienced the same metamorphosis

Throughout their galaxies in the universal omelette!

The chicken and egg were in bed. Suddenly the egg lit up

A cigarettel! So that answers that question! (who came first)

Breakfast is not breakfast without organic Bolinas eggs!

Create your own future-omelette! Imagination is a great

Seasoning!
